

\$25.00

ODNR DIVISION OF PARKS AND RECREATION
SEAWALL PERMIT APPLICATION FORM

1. Applicant Name _____
Address _____ Phone (____) _____
Street City Zip

2. Address where seawall is to be constructed or repaired:

Street City Zip

3. Proposed Dates of Construction: Begin:_____ End:_____

4. _____ New Construction on _____ Replacement or Repair (Check One)
Natural Shoreline of Existing Seawall

5. If repair or replacement of existing seawall, indicate material composing existing seawall:

6. Proposed material to be used for seawall repair, replacement of new construction:
_____ Concrete Wall/Piling * _____ Treated Lumber (other than creosote or "penta"
_____ Clean Stone Rip-Rap (Preferred) and only for use above the water line) Indicate
_____ Sheet Steel Wall/Piling type: _____
_____ Other (specify): _____
_____ Untreated Lumber (specify): _____

(* The use of creosote or "penta" treated lumber is prohibited)

7. Proposed dimensions of seawall:
Length:(linear feet)_____ Width:(thickness)_____ Height:_____

8. Indicate construction details and specifications on a separate plan sheet. Detail such items as tie back/deadmen to be used, type and spacing of piling, rip-rap size and slope of placement etc.. (It is recommended that rip-rap be placed at the toe of all vertical bulkhead style seawalls to protect the base of the seawall from undermining and to provide improved fish habit.)

9. Attach a copy of the survey plat for the property indicating the area of shoreline to be protected and the exact location of the proposed seawall relative to the surveyed boundary of the applicant's property. (Plat maps are available from the County Recorder's office).

10. Attach a copy of the deed of the affected property. (Permit applicant and property owner must be the same).

11. Indicate if proposed construction will involve a modification of the existing contour of the shoreline by either:
CY = (width x length x depth) / 27
_____ a cut into existing land area _____ a fill into submerged property _____ Cubic Yards

If either line above is checked, sketch the extent of the cut or fill on the survey plat required in Item 9.

12. Indicate materials used for seawalls on adjoining shoreline areas, if any _____

I have read the rules and stipulations on the reverse side of this form and agree to said rules and stipulations. I also agree that construction will be in accordance with standard plans and specifications of the Division of Parks and Recreation, or in accordance with the plans and specifications submitted with this application, if approved.

SIGNED (APPLICANT)

DATE

SEAWALL PERMIT - RULES AND STIPUATIONS

1. Where any seawall has been constructed or is in any state of construction adjacent to the waters of the Division without a seawall permit having been issued, the Chief or designee may require the responsible party to remove the unauthorized structure.
2. Shoreline protection is the responsibility of the Applicant. The seawall and any adjacent state land must be maintained in good condition and cleaned of litter by the Applicant as determined by the area manager.
3. The Applicant agrees to construct, maintain, and use the seawall in for the purpose for which it was intended and to save the State, its nominees and assigns, harmless from any damage; and all other loss, cost or expense arising from the construction, maintenance and use of such seawall.
4. All necessary permits, such as electric for watercraft hoists, and all building and zoning codes must be identified and will be the responsibility of applicant. **The Applicant shall comply with all laws and regulations and obtain all other necessary permits and approvals. This permit does not preclude the need for the Applicant to obtain any other Federal, state or local authorizations required by law. The State makes no representation that the Applicant can secure authorizations from the U.S. Army Corps of Engineers or the Ohio Environmental Protection Agency or any other Federal, state or local authorizations as required by law.**
5. **The State may, without prior notice, at all reasonable times, enter into and upon property to determine if the applicant is complying with the terms of this permit.**
6. The Division of Parks and Recreation will not be responsible for dredging adjacent to private seawalls. Before any underwater maintenance or dredging is performed adjacent to or near the structure, owner approval must be sought from the Division of Parks and Recreation and the U.S. Army Corps of Engineers. The Division's authority to control such activity is found in OAC 1501:41-3-11.
7. Approval of construction does not grant the applicant exclusive use of Division of Parks and Recreation shoreline, if applicable, unless leased separately.
8. No mowing shall be done on state land adjacent to any privately constructed seawall without first submitting a mowing plan and obtaining approval from the park manager.
9. **Seawall plans and specifications must be submitted showing as much detail as possible, sufficiently representing dimensions, materials, and construction methods. Examples of ODNR approved seawall plans are available at the park office.**
10. Only construction that meets the requirements in accordance with the local park's Dock or Lake Management Plan will be considered.
11. Taxes, if assessed against the seawall, will be the Applicant's responsibility.
12. Seawall construction shall be completed within 12 months of the approval date of the application.

APPROVED

_____ is herewith authorized to construct/repair a seawall structure in accordance with the information provided within the application on the reverse side of this form. Construction will be completed by _____ 20____.

DISAPPROVED, (Explanation) _____

SPECIAL STIPULATIONS see attached letter. _____

Construction to be inspected by park personnel upon completion. Please call 740-467-2690 ext. 0

CHIEF or Designee, Division of Parks and Recreation
